HARO[®]
USA

Go ahead, explore the possibilities aboard Haro's exciting, new Explorer line. Whether it's city streets, country roads or the roughest off road trails the all-terrain Explorers will take you there and back. The Haro Explorers feature comfortable, user friendly frame geometry, anatomical saddles, quality componentry and rugged construction throughout. Haro Explorers: sizes to fit anyone, performance to go anywhere . . .

EXPLORER 26

Explore the possibilities with our top of the line, full sized, 26 inch, 18 speed all-terrain machine. Features: super light, triple butted chromoly frame and fork, full braze-ons, chrome forks and chain stay, Ukai alloy rims, Suzue sealed hubs, alloy triple crankset, Sun Tour thumb shifting, Dia-Compe cantilever braking, Panaracer knobby tires, quick release seatpost, plush Viscount touring saddle and foam grips. Available in mens and ladies models in three frame sizes: 19", 21", 23". The Explorer 26: Get there from here.

MENS:

LADIES:

EXPLORER 24

Our unique mid-sized Explorer 24 is in a class all its own: perfect for those riders demanding full-sized 15 speed performance in a scaled down 24 inch wheel package. Features: super light, triple butted chromoly frame and fork, full braze-ons, chrome forks and chain stay, Ukai alloy rims, Suzue sealed hubs, alloy triple crankset, Sun Tour thumb shifting, Dia-Compe cantilever braking, Panaracer knobby tires, quick release seat post, plush Viscount touring saddle and foam grips. Available in both mens and ladies frame style. The Explorer 24: Mid size, full performance.

MENS:

LADIES:

EXPLORER 20

The Explorer 20 is our exciting entry level ATB with full-sized features for smaller riders demanding 20 inch wheels. Features: tough tri-moly frame, chromoly fork, full braze-ons, chrome fork and chain stay, Ukai alloy rims, Suzue sealed hubs, Sun Tour 10 speed thumb shifting, Dia-Compe cantilever braking, snakebelly style knobby tires, quick release seat post, plush Viscount touring saddle, and foam grips. Boys style frame only. The Explorer 20: our little bike with big all terrain ambitions.

explorer®

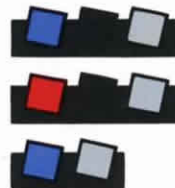

Our competition is worried. And for good reason: our new Thoroughbred race line: Group 1. Three models designed with one thing in mind . . . to win races. That commitment is reflected in our polished Group 1 race componentry, ultra-light track chassis, bold tri-color graphics and those unmistakable little Haro details. Details that allow the RS1, RS2 and RS3 to go faster than the competition. Haro Group 1 . . . Designed for leaders not followers. Designed for you.

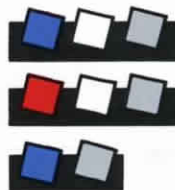

RS1

The RS1 is our top gun Group 1 racer specifically designed for intermediate and advanced riders. Features: triple butted chromoly frame and tapered fork, unique wrap around head gusset, knurled drop outs, full chromoly bars, stem, seatpost and Group 1 tubular chromoly three-piece crankset with integrated disc and uni-directional chain ring, Victor alloy pedals, Ukai alloy rims, Panaracer 1.75" tires, Dia-Compe 901/Tech 5 braking, tri-color graphics, Chrome forks and stays. The RS1: Group 1 Top Gun.

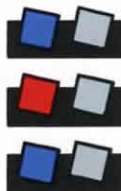

RS2

The RS2 is our most affordable racer. It's identical to the high tech RS1 with the exception of its Sugino one-piece crankset, Cheng Shin tires, tough hi-tensile steel handlebars and even tougher to beat price. Features: 100% Group 1 triple butted frame and tapered forks with quick change dropouts, Group 1 stem, Victor alloy pedals, Ukai alloy rims, Dia-Compe 900/Tech 6 braking, tri-color graphics and chrome forks and stays. The RS2: Group 1 Race Ready.

RS3

The RS3 is our Group 1 entry level racer perfect for high performance street, trail or track use. Features: Group 1 tri-moly frame, chromoly fork, stem and one-piece crankset with Power Disc and Uni-Directional chainring, Victor plastic pedals, Ukai alloy rims, Cheng Shin tires, Dia-Compe 890/Tech 6 braking, bold tri-color graphics, chrome forks and stays, and Haro signature wrap around head gusset. The RS3: Fun Intended.

GROUP 1

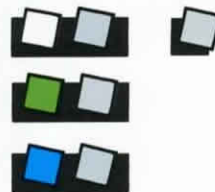

The Haro Freestylers: The first name in freestyle and the last word when it comes to definitive freestyle machines. Today there's three models designed for those who demand the very best: The heritage, legendary good looks, fanatical attention to detail and proven performance that has made Haro Freestylers the overwhelming choice of elite freestylers world wide. The Haro Freestylers: For those who aspire to fly higher.

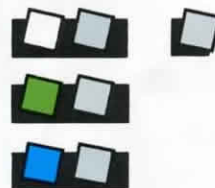

MASTER

The Master is our top of the line freestyle bike with unmistakable Haro heritage, legendary good looks and definitive freestyle handling. Features: 100% 4130 chromoly frame, fork, bars, stem, seat post, Group 1 tubular crankset, twin top tube design, flip up fork pegs, rear axle platforms, heavy duty drop outs, brazed on cable guides, chrome forks and stays, Haro FS-175 freestyle tires, original Tuff Wheels, Dia-Compe 883/Tech 5 Braking, MKS Graphite-X pedals and bold Haro graphics. The Master: First in freestyle.

SPORT

The Sport is probably our most popular Freestyler and for very good reason: its versatility. While the Master is the undisputed ultimate for flatland freestyle, the Sport is the ultimate all-around 'styler. Whether it's parks, ramps or streetstyle the Sport shreds. Features: 100% 4130 chromoly frame, fork, bars, stem, fluted seat post, one-piece cranks, FS-200 tires, Peregrine mag wheels, Haro Uni-Directional chain ring and Power Disc, Dia-Compe 883/Tech 6 braking, Victor plastic platform pedals, two-into-one top tube design, flip up fork pegs, rear axle platforms, heavy duty drop outs, brazed on cable guides. The Sport: 100% chromoly. 100% freestyle.

FST

The popular FST is our entry level model designed for freestyle, street or track use. Features: Haro tri-moly frame, chromoly fork, hi-tensile steel bars, seat post, one-piece chromoly crankset, Victor plastic platform pedals, Ukai alloy rims, FS-175 freestyle tires, Dia-Compe 880/Tech 6 braking, two-into-one top tube design, bolt-on fork pegs, heavy duty dropouts, reinforced head tube, brazed on cable guides, chrome forks and stays. The FST: As versatile as you are.

freestyler

Sure, there are plenty of other sports out there that you could do. But you don't. They're not your style. Not exciting enough. So you're into BMX . . . you're into freestyle . . . you're into going for it. But you're not into taking chances with your equipment. That's why you, like the sports top pros turn to Haro. You know from our full line of safety gear and racewear to our trend setting T-shirt designs and leisure wear that Haro has got you covered safely and stylishly. Haro Software: Quality gear for quality riders like you . . .

TECH SERIES ELBOW GUARD

The state of the art forearm and elbow protection made exclusively for Haro in Finland. Features ultralight molded foam laminated with an outer lycra skin. Wide elastic straps. Velcro adjustable. Bold Haro logos. Cool. Comfortable. The ultimate in protection. Available in sizes: small and large in four team colors.

STANDARD ELBOW GUARD

Our most affordable elbow guard. Lightweight and stylish wrist to bicep protection. Tough nylon pack cloth outer. Full forearm padding. High impact elbow cap. Wide elastic straps. Velcro adjustable. Available in sizes small and large in four team colors.

TECH SERIES KNEE GUARDS

The most technologically advanced knee protection ever. Unique molded foam laminated with an outer lycra skin. High impact plastic knee cap, internally padded with dual density foam. Removable inner pad. Form fitting elastic back. Velcro closures. Incredible fit. Lightweight. Cool. Unrivaled protection.

GEAR BAG/DAY PACK/ FLIGHT BAG

Our team gear bag is designed to hold all your racing or freestyle gear: helmets, shoes, pants, gloves, etc. Day pack is designed to backpack books or assorted smaller items while our flight bag easily accepts one standard 20-inch bike for convenient air travel. All bags are constructed of durable nylon pack cloth with heavy duty zippers, straps and closures. Available in blue and silver with high visibility Haro silk screened logos.

HATS

Two styles. One size fits all: fully adjustable. 1. Blue cloth with embroidered Haro Racing logo. 2. European cut cloth cap with embroidered Motives logo and contrasting side panels. Available in two color combination.

SAFETY PADS

Maximum protection. Minimum weight. Constructed of tough nylon pack cloth over superlight foam. Velcro closures. Available in 12-inch frame, jumbo frame, twin top tube style, 9-inch crossbar, V-bar style and stem. Offered in four colors with Haro silk screened logo.

LEATHER GLOVES

Lightly padded soft leather palm. Double stitched in critical areas. Flexible backhand padding. Form fitting spandex cuff and fingering. Breathable backhand material wicks up sweat. Lightweight. Durable. Cool. Super protective. Four sizes. Four color combinations.

FINGERLESS COTTON GLOVES

The ultimate in cool, comfort and fit. 100% cotton. Snug cuff. Perfect fit. Rubberized palm strips for all weather grip. Backhand computer graphics and Haro logo. Sizes small and large in four colors.

COTTON GLOVES

The perfect all weather glove. 100% cotton with rubberized lateral palm stripping for non slip grip wet or dry. Snug cuff. Haro computer graphics. Four colors. Small and large sizes.

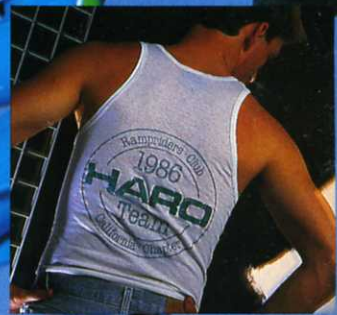

TECH SERIES GLOVE

Our top line glove. Futuristic styling. Super protective molded foam backhand with laminated lycra outer skin. Supple man made leather palm. Spandex finger in-seams for comfort and cooling. Amazingly lightweight. Available in four colors with contrasting Haro chevrons. Sizes: small, medium and large.

TEAM PATCHES

Join our team with a Haro team issue sew on cloth patch. Beautifully embroidered. Bright team colors and racing logos.

software

software

*If you're like us you take pride in taking chances . . .
pushing your luck . . . pushing your bike to its limits.
But top level racing and freestyling can take it's toll.
On you. On your equipment. So you've got to prepare
yourself for the worst by arming yourself with the best:
Haro Components . . . Hardware for hard riders.*

MASTER FRAME/ FORKSET

100% 4130 chromoly construction. Classic twin top tube design. Rear axle platforms. Heavy duty drop outs. Triangulated head tube gusset. Brazed on cable guides. Oversized fork legs. Flip-up fork pegs. Coaster brake arm mount. Chromed forks and stays. Stamped Haro logos. Awesome finish and graphics. In white, green, blue or chrome. The ultimate chassis for flatland freestyle. Period.

SPORT FRAME/ FORKSET

Slightly longer and more relaxed frame geometry than the Master. 100% 4130 chromoly construction. Two-into-one top tube design. Rear axle platforms. Heavy duty dropouts. Triangulated head tube gusset. Brazed on cable guides. Oversized fork legs. Flip-up fork pegs. Coaster brake arm mount. Chromed forks and stays. Stamped Haro logos. In white, green, blue or chrome. The definitive all around freestyle frame and fork.

GROUP 1 RS1 FRAME/ FORKSET

Our top of the line race chassis. Superlight. Super stiff. 100% triple butted chromoly frame with tapered chromoly forks. Stout dropouts. Unique wrap around head gusset. Bold graphics and finish. Chromed rear stays for added durability. Stamped Haro logos. Tri-color paint. chromed forks. In blue/black, red/black, blue/white, red/white, all chrome.

SEATPOSTS

These are the same posts you'll find on our top line complete bikes. Straight or classic lay back styles. 100% chromoly. Fluted. The ultimate in strength to weight ratio. Available in painted or chrome.

FORKS

Two models: Freestyler and Group 1 RS1. The same forks you'll find on our top line Master and RS1 models. 100% chromoly. Freestyle models feature oversize legs, heavy duty knurled dropouts, mounting holes for flip-up pegs, brazed on cable guides and chromed lower section for added durability. Group 1 RS1 models feature lightweight tapered tubing, unique quick change dropouts and full chrome finish. The ultimate forks for freestylers or racer. Available in painted and chrome finishes.

FREESTYLE TIRES

Our popular FS-175 and FS-200 freestyle tires. Specifically designed for freestyle and high performance street useage. Ultra light skin wall construction. Minimal weight and rolling resistance. Maximum traction. Long wearing. Available in two widths: 1.75" and 2.00" and four colors: blue, green, black and white.

FREESTYLE FORK PEGS

The ultimate fork pegs. Superlightweight. Chromoly construction. Aggressive teeth. Quick flip up. Clicks in and stays up. Safe. Sanitary design. Durable chrome finish. Stamp Haro logo.

AXLE EXTENDERS

A must for serious freestylers. Superlight alloy. Deeply knurled for superior traction. Available for either 24 or 26 TPI axles in blue, black or silver with Haro logo.

GROUP 1 CRANKSET

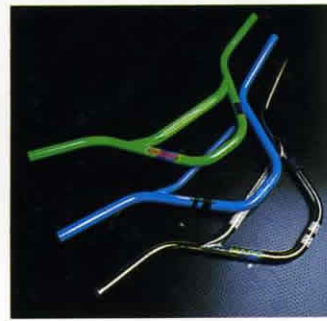

More crank. Less weight. Tough 4130 chromoly construction. Stiff. Fast. Super strong. Super light. In either 180mm or 175mm lengths. For use with either precision Power Disc or five star Uni-Directional spider and chain rings. Standard equipment on our top line RS1 racer and Master freestyler. The ultimate crankset for top level racing or freestyling

GROUP 1 STEM

Originally available on our top line complete bikes we now offer the top rated Group 1 stem separately. Knurled, non slip 4130 chromoly steering shaft. Flex free forged alloy, four bolt head with raised Haro Group 1 logo. Also available with optional hollow wedge bolt for freestyle cable routing. Available in neon green, blue, or chrome.

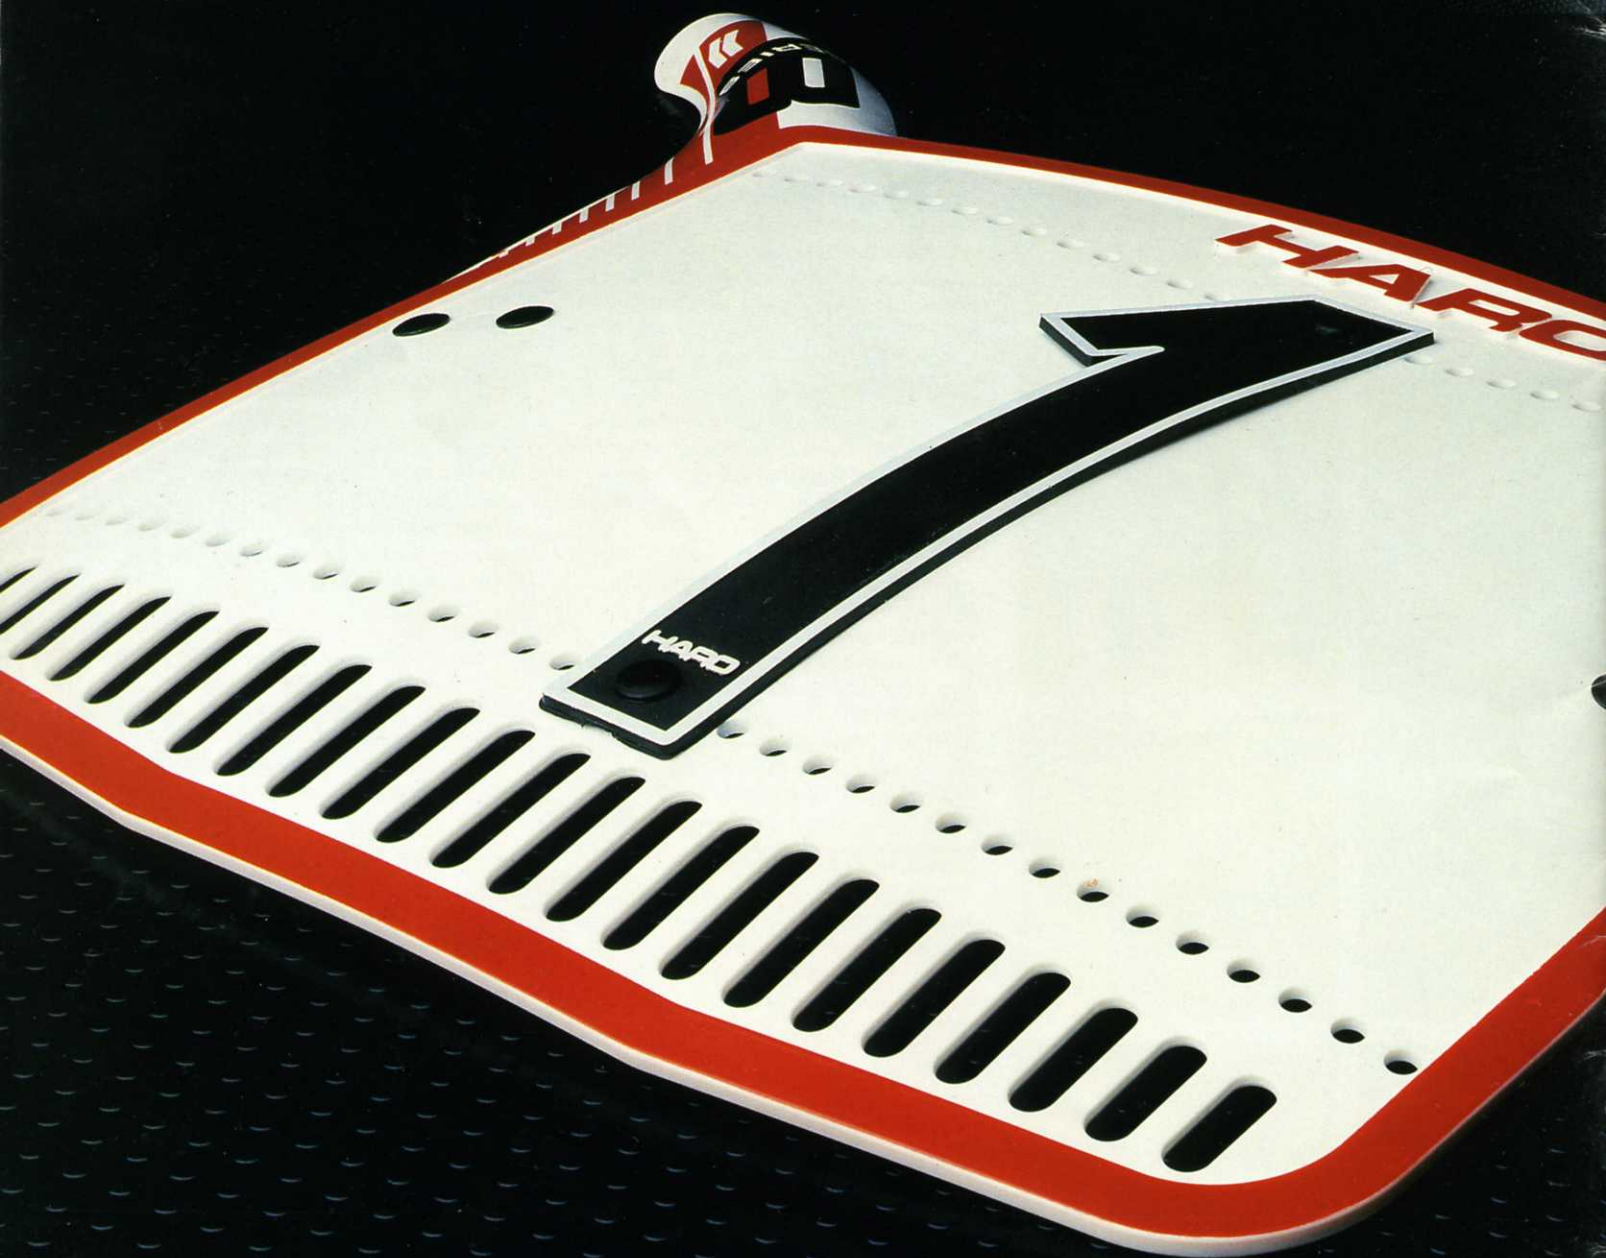

HANDLEBARS

Available in both Freestyler and Group 1 racing styles. Freestyler model features 1" diameter dropped and knurled crossbar for surefooting. Group 1 style are lightweight, flatter bend ideal for racing. Both are 100% 4130 chromoly, precision machined, welded and finished in either durable chrome or painted team colors.

components

Chances are you've already seen our numberplates, visors and mouthguards before. They're hard to miss. They're also hard to beat. That's why most of the world's top riders have come to insist on Haro products. Nothing else will quite do . . . The quality. The graphics. The performance. Haro Accessories . . . All show. All go.

AERO VISOR

Visor of the stars: Wilkerson The Real McCoy, Sigur, Blyther, Nourie and McGlyn. High-tech aerodynamic design. Solid four snap mounting. Park, ramp and racer's fave. Available in five team color combinations.

PEAK VISOR

Considered by many to be the ultimate visor design. Classic three snap mount. Bold Haro graphics. For freestyle or racing. Available in five team color combinations.

BUBBLE VISOR

Legendary. The choice of champions past, present and future. Unequalled vision. Three snap mounting. Clean graphics. Available in five team color combinations.
